Dahlias and Gladiolus

for 1949 Department of Agriculture

AND SUPPLEMENT TO OUR 1948 CATALOG

Containing complete index on price revisions, varieties discontinued, many varieties not listed in our 1948 catalog and Beverley new introductions for 1949. Plus several changes in regard to discounts and collections.

Because of the existing fluctuating price and market conditions as well as continually mounting production costs we thought it to the best interest of our customers as well as ourselves to defer issuing a complete new catalog until a later date.

We urge our customers to order early enough to be assured of getting as complete a selection of their own choice as possible. Be sure to state approximate date you wish your order to be shipped. We are in a better position to store roots and bulbs over the winter months than most of our customers, consequently, we do not advise shipment until proper planting time in your area.

DAHLIAS

IMPORTANT NOTICE

DISCOUNTS—We are discontinuing the discount allowable in 1948 catalog on money value of order, but will allow the following discounts on quantities of same variety:

5 of any one variety	10%
10 of any one variety	15%
25 of any one variety (or more)	25%

Above discounts apply to Dahlias only and do not apply to any special offers, collection, or varieties market NET.

COLLECTIONS

ALL DAHLIA COLLECTIONS in our 1948 catalog are hereby discontinued, mainly for lack of response on the part of our customers.

OUR OWN ORIGINATIONS

We are very proud of these new dahlias, grown from our own seed and thoroughly tested for four years before being offered to the public for the first time in this listing.

MOULIN ROUGE (SC)

Very vivid scarlet showing an iridescent sheen in the sun. Has every attribute one could wish for in a dahlia except, perhaps, size. It makes up for this in the multitude of blooms it produces, averaging 7 inches. Flower has the substance to enhance its lasting qualities both on and off the plant. Bloom carried on a long, heavy, ramrod like stem, supported by an exceptionally healthy, sturdy plant and root system. 5 to 6 feet in height.\$5.00

RED WING (ID)

This one has all the characteristics of Moulin Rouge except the flower itself. More of a subdued red, scarlet to crimson. Petals curl and twist, creating a beautiful bloom. Flowers average 7 to 9 inches. Also a profuse bloomer on a 5 to 6 foot bush.\$5.00

LAVANCHEE (FD)

A rare blend of coloring hard to describe, being an exotic greenish yellow overcast light Amaranth purple, creating a smoky Tyrian rose effect. Large blooms of very good substance, up to 12 inches, carried on heavy, stiff stems. Outer petals quite often over 2 inches in width. Plant low branching and healthy, low to medium height, distinctive foliage.\$5.00

FAYE (FD)

The color of this one is deep pink, heavily overcast cerise. Not a large flower, but very productive of beautiful blooms. Has all the characteristics of a good cut flower. Plant is very healthy and easy to grow, wonderful root system. Blooms 5 to 6 in. Bush 5 ft.\$2.50

(Descriptions given on those not listed in our 1948 Catalog)

ALICE MAY (ID)—White	\$0.75
ALL AMERICAN (SC)—Blend	1.25

ALTMARK (SC)—Blend50
